

Dear Listserv friends,

I am pleased to announce the 'Joint International Neurosurgery Resident Academic Meeting'. This would be a monthly joint academic meeting among neurosurgery residents of participating centres over webinar and sharing of presentations on web-based file share and, membership of Resident Neurosurgery Listserv.

If you would be interested in your department participating in this collaborative, please drop me an email. Plan to start a pilot group and organically expand.

The idea for this project comes from my previous discussions on similar projects I had with Dr Cara Sedney, Assistant Programme Director, University of West Virginia, Dr Lawrence Chin, Professor and Chair, Department of Neurosurgery, SUNY Upstate Medical University and, support for the project Mr Kevin Tsang, Programme Director, Department of Neurosurgery, Imperial Health Care Trust, London.

Thank you for any of your support for this initiative.

Warmest regards,

Naren

Please note that the clinical cases discussed in this ListServ should be kept confidential.

The advices given to cases posted in this ListServ are general; those posting advices have not seen, assessed the patients or discussed with patients or families the various management options, their benefits and their risks. The advisors give their advice based on their circumstances (their experiences, skill-set, facility, local cultural customs and ethical standards) and may not apply to patients treated elsewhere. The advices given in ListServ should be considered as a 'brain storming' exercise and the members posting opinions are not responsible in any way should \* you decide \* to follow any of the advice.
